

About GreenPages

GreenPages is a \$120M national consulting and integration organization that helps commercial, healthcare, and financial clients (enterprise and midmarket) fully virtualize their environments and transform their datacenter and IT operations to strategically leverage the power of cloud computing.

GreenPages has 190+ employees with a technical resource team of more 90+. With offices in Kittery, ME; Boston, MA; New York, NY; and Atlanta, GA, GreenPages is one of the most elite virtualization and cloud consulting and integration companies in the U.S.

It is not merely a matter of if cloud computing will be adopted, but how fast.
